PLEASE NOTE: **In the past, all parade entries were judged in the Marshalling Area, however the Parade Committee has decided to let the community vote through social media for the 2022 Parade. Further information will be shared as it becomes available**

This, in no way, means that entries are not required to be decorated. The 80% decorated rule still applies. The vehicle wrap will not be accepted in any category unless complimented by additional decorations.

The rule of thumb is: If it can be seen on the street that way every day - it needs more!
